

UNH Cooperative Extension Specialists and Areas of Expertise

Agricultural Resources

Alan Eaton, Integrated Pest Management (Spaulding Hall 862-1734)

email: alan.eaton@unh.edu

- Integrated Pest Management programs for NH growers
- Food safety information and alerts

Peter Erickson, Dairy (Ritzman Lab 862-1909)

email: peter.erickson@unh.edu

- Dairy herd management, dairy cattle nutrition, and applied research
- Technical assistance with management intensive grazing for dairy and livestock farms

Brian Krug, Greenhouse and Floriculture (Spaulding Hall 862-0155)

email: brian.krug@unh.edu

- Greenhouse and Floriculture

Michal Lunak, Dairy (located in Grafton Cty. Office - 787-6944)

email: michal.lunak@unh.edu

- Dairy herd management
- Agricultural business management

Catherine Neal, Ornamental Horticulture (Spaulding Hall 862-3208)

email: cathy.neal@unh.edu

- Research and support of production practices for ornamental horticulture
- Landscape uses of woody ornamentals and nursery crops

John Roberts, Turf (Spaulding Hall 862-3202)

email: john.roberts@unh.edu

- Research and support of low maintenance turf management practices for golf courses and recreational turf
- Practical research to reduce winter injury on turf

Michael Sciabarrasi, Agricultural Business Management (Nesmith Hall 862-3234)

email: mike.sciabarrasi@unh.edu

- Business planning for agricultural and natural resource firms
- Financial management education for farms and family businesses
- Computer decision software and applications in agricultural management and marketing

Becky Sideman, Sustainable Horticulture Production (Spaulding Hall 862-3203)

email: becky.grube@unh.edu

- Sustainable horticulture production

Cheryl Smith, Plant Health (Spaulding Hall 862-3841)

email: cheryl.smith@unh.edu

- Plant health information and educational programs for NH's commercial agricultural community and home horticulturists
- Diagnostic services to commercial producers, arborists, landscapers, and home horticulturists through the UNH Plant Diagnostic Lab

Stan Swier, Entomology (Spaulding Hall 862-1733)

email: stan.swier@unh.edu

- Pesticide safety education and pesticide applicator certification and recertification
- Integrated pest management programs and sustainable strategies for turf, ornamentals, and forestry

Community Development

Charlie French, Community and Economic Development (Nesmith Hall 862-0316)

email: charlie.french@unh.edu

- Community and economic development techniques
- Strategic planning and community-based decision making
- Technical assistance with tourism development, e-commerce, and surveys/needs assessments

Family and Consumer Resources

Colette Janson-Sand, Food and Nutrition (Family Nutrition Center 862-1723)

email: chjs@cisunix.unh.edu

- Nutrition in health
- Healthy choices in nutritional behavior change
- Childhood obesity

Suzann Enzian Knight, Family Resource Management (Petee Hall 862-0092)

email: suzann.knight@unh.edu

- Financial management for individuals and families
- Welfare to work education

Debbie Luppold, Food and Nutrition (located in Merrimack Cty. Office 225-5505)

email: debbie.luppold@unh.edu

- Nutrition and food safety

Malcolm Smith, Family Education & Policy (Petee Hall 862-7008)

email: malcolm.smith@unh.edu

- Parenting Education and Child Development
- Understanding Anger in Children and their Families
- Strengthening Foster Care, Kinship Care and Every Child's Right to Experience "Family"

Catherine Violette, Food and Nutrition (Kendall Hall 862-2496)

email: catherine.violette@unh.edu

- Current research findings into nutrition and food safety education programs

Forestry and Wildlife Resources

Karen Bennett, Forest Resources (Nesmith Hall 862-4861)

email: karen.bennett@unh.edu

- Forest stewardship information and educational programs for landowners, foresters, communities
- Professional development opportunities for foresters and other natural resource professionals

Sarah Smith, Forest Industry (Nesmith Hall 862-2647)

email: sarah.smith@unh.edu

- Technical and educational information and assistance to NH's forest industry and to local and state level economic development practitioners about forest industries and expansion opportunities
- Coordinates educational component of NH Timber Harvesting Councils' Professional Logger Program

Matt Tarr, Wildlife (Nesmith Hall 862-3594)

email: matt.tarr@unh.edu

- Provides education to natural resource professionals, landowners and communities about protecting and enhancing wildlife habitat
- Natural resources volunteer program, called "Coverts", training and public service through locally based volunteers

4-H Youth Development

Charlotte Cross, 4-H Youth Development (Petee Hall 862-2495)

email: charlotte.cross@unh.edu

- Risk and protective factors at the youth, family & community level associated with youth development

Paula Gregory, 4-H Youth Development (Moiles House 862-2909)

email: paula.gregory@unh.edu

- Comprehensive and sustainable community-based programs addressing critical issues for at-risk children, youth and families
- Youth entrepreneurship and workforce preparation

Sea Grant & Water Resources

Shane Bradt, Geospatial Technologies (Nesmith Hall 862-4277)

email: shane.bradt@unh.edu

- Remote sensing of lake water quality
- Use of GIS and GPS for community mapping
- Applied GIS for watershed analysis

Ken La Valley, Commercial Fishing Gear Technology (Nesmith Hall 862-4343)

email: ken.lavalley@unh.edu

- Commercial fishing gear
- Commercial fishing safety
- Collaborative research between scientists and fishermen

Julia Peterson, Water Resources (Kingman Farm 749-1565)

email: julia.peterson@unh.edu

- Zebra mussels and Atlantic salmon restoration
- Estuarine water quality and technology to mitigate water pollution

Jeff Schloss, Water Resources and NH Lakes Lay Monitoring Program (Nesmith Hall 862-3848)

email: jeff.schloss@unh.edu

- Watershed protection and stewardship; non-point source pollution detection and mitigation; wellhead protection
- Cost-effective water quality and watershed monitoring protocols for citizens, monitors and students
- Data management, analysis, interpretation and presentation
