Barry Conservation Camp is operated by the UNH Cooperative Extension 4-H Program in cooperation with the N.H. Fish and Game Department. Located in the scenic White Mountain National Forest, Barry Conservation Camp provides a close-knit community for its 38 campers and 11 staff. Small, cozy cabins house 7 campers and a counselor. Campers are grouped by age and gender. There are new and modern central toilets, shower facilities and a beautiful dining hall complete with a great kitchen which produces legendary meals.

Barry Conservation Camp is a great program for kids who love the outdoors, enjoy hands-on learning in environmental and conservation programs and can benefit from participating in a small camp. Our staff takes pride in creating a special place where kids can discover their individual strengths. Campers and staff work together as a team in the hope that everyone leaves camp with a greater awareness of themselves and the world around them.
