4-H Records Workshop

Yes indeed, many leaders feel that the world of 4-H records is way too challenging and confusing. If you agree, then you are encouraged to save Wednesday, February 10 for an informative session which will explore the topic of 4-H records. Participants will learn how to get their 4-H'ers on the road to records success. You'll learn how to use 4-H records as a valuable tool for planning and goal setting. Pre-registration for this evening workshop is required no later than February 5. Remember, the date is February 10 and we'll start at 6:30 PM at the Coös Extension 4-H Office in Lancaster.
