

Farm Bureau Members Are Invited to the -

DG - Whitefield Power Plant
260 Airport Road, Whitefield, NH

November 18, 2009
Wednesday, 10:00 a.m.

Coös County

For a tour and discussion, by Rob Court of NE Organics, of the their locally produced wood ash, available for use on your farm land. Wood ash can be used to reduce soil acidity while also supplying other important nutrients. Steve Turaj, UNH Cooperative Extension, will be on-hand to answer soil-testing and agronomic questions.

Please RSVP 586-7000
Coös County Farm Bureau Board of Directors

* At the time of posting, the Airport Road Bridge was closed for construction. So, take Hazen Road off Route 115 in Jefferson. From that intersection it is 1.6 miles to the DG Plant entrance.
