Concerns of the Nursery Industry
How to control ALB - the challenge
Leave your firewood at home
Questions & Answers

Who should attend?

Landscapers
Nursery plant growers
Arborists
Foresters
Interested persons
General public

Why you should attend

Learn about this serious invader at our doorstep. If the Asian Long Horned beetle becomes established in NH, we potentially will suffer millions of dollars in losses by the forest, maple syrup, landscape, and nursery industry. Learn how to identify the beetle and damage symptoms. The earlier we discover this beetle in NH, the less it will cost to eradicate it. Learn what we can do about it.

What does "Train the Trainer" mean?

This meeting will train you to educate your employees, clients, neighbors, and garden club members to the dangers and symptoms of an ALB infestation. We need to spread the word. Any further instruction on your part is optional.

Training Certificates

Available upon request

The Speakers

Stan Swier,
Cooperative Extension
Entomology Specialist

Margaret Hagen,
