Learn how to Identify Invasive Plants and Insects

We will meet at the New Hampshire Farm Museum parking lot at 10:00AM on Saturday September 25th.

From there we will learn about invasive insects to watch out for as well as take a walk where we will learn how to identify common invasive species, how they are spread and discuss actions we can take to eradicate them.

Multiflora Rose

Invasive species are non-native plants that were introduced to an area and have since become a threat to the native plant communities. There are currently 35 species that are banned in the State of New Hampshire.

Presenters include

Deborah Goard – Extension Educator, Forest Resources Strafford County UNH Cooperative Extension

John Batson - Co-owner of Jenesis Gardens & Design

Autumn Olive

This workshop is Free
