

Emerging Forest Pests - What Towns Need To Know To Protect Their Forests

Friday, December 11, 2009
9:00 AM to 12:00 PM
Keene Recreational Center
Room 14, 312 Washington Street, Keene NH
3 Pesticide Credits

Who Should Attend: town officials, public works, recreation departments, land managers, fire wardens and conservation commissions.

Join staff from the New Hampshire Division of Forest & Lands and Cheshire County UNH Cooperative Extension for an in depth session covering the forest pests threatening our region's forests and urban trees. The Asian longhorned beetle, emerald ash borer and hemlock woolly adelgid will be discussed and attendees will have the opportunity to view real samples of these insects and the damage they cause to trees. This session is tailored for town employees and those working on public lands but the public is welcome to attend.

Topics to be covered:

- Asian longhorned beetle
- Emerald ash borer
- Hemlock woolly adelgid
- Identification
- Life cycles of these pests
- Pest control and eradication
- Pest signs & symptoms

This is a free public workshop but pre-registration is suggested by calling 352-4550. Persons requiring special accommodations should call two weeks prior to the event so that proper consideration can be given to the request.

Sponsored by:
