

July GIS Workshops in Durham, NH

Introduction to ArcGIS 9.2

July 28-30, 2008 *(new date)*

9am to 4pm
(3-day workshop)

Topics covered:

GIS concepts
GIS techniques
ArcGIS 9.2

reduced \$275
standard \$450

Skill level: Fundamentals

Learn the basics of working with ArcGIS 9.2 in a hands-on learning environment! This course is useful for people who have no prior GIS experience, as well as those who have used ArcView 3, but are new to ArcGIS 9. Familiarity with Windows is highly recommended. With a focus on New Hampshire data and applications, participants learn how to use ArcGIS 9 to produce attractive, effective maps. In addition, each participant receives their own detailed step-by-step manual to use as a reference after the course is over.

Participants will learn to:

symbolize GIS data; add labels and annotation; query data; use geoprocessing tools: merge, buffer, dissolve; manipulate attribute tables by adding fields, calculating values, and joining tables; import data into ArcGIS

GIS on Pennies a Day

July 23, 2008 *(new date)*

9am to 4pm
(1-day workshop)

Topics covered:

GIS concepts
low cost GIS software
GIS data in NH

\$90

Skill level: The Basics

Learn GIS basics and explore a variety of GIS programs you can get for little or no cost (for PC's and Macs)! This course is useful for people who have no prior GIS experience and GIS users interested in low cost options. The GIS world has experienced an explosion of free and inexpensive programs that allow users to make maps, edit data and perform geographic analysis without breaking the bank. In this workshop, participants will have a chance to get their feet wet with numerous free and low cost GIS programs, learning the pros and cons of each. We will also cover GIS basics, common types of GIS data, and getting GIS data in NH.

Participants will learn to:

make GIS maps; download free GIS data; edit and manipulate GIS data and tables; calculate area; query GIS data; use basic geoprocessing tools, symbolize GIS data
