

## Summer 2007 NH Arc Users Group Meeting

**Date & Time:** July 24, 2007, 9:00 am - 12:30 pm

**Location:** SPNHF Conservation Center, 54 Portsmouth Street, Concord, NH

**Directions & Info:** <http://www.spnhf.org/ourproperties/conservation-center.asp>

**Registration:** Please send an email to Shane (sbradt@ceunh.unh.edu) if you plan to attend

**Lunch:** If you are interested in having pizza during the round table, email Shane and bring \$3.

### AGENDA:

- 9:00-9:20      *Shane Bradt, UNHCE - NH Arc Users Group Survey*  
Presentation of results from user group survey and discussion of future directions for the group.
- 9:20-9:45      *Jennifer Lingeman, NH GRANIT - NH Municipal GIS Survey Results*  
Overview and results of the GRANIT Municipal GIS Survey, which collected detailed information regarding municipal GIS data holdings including tax map, zoning, elevation and image data.
- 9:45-10:15     *Ken Gallager, NH OEP - The New Hampshire Strategic GIS Plan*  
Highlights of the soon-to-be-released Strategic GIS Plan for New Hampshire and of a related business plan for the creation of a Statewide GIS Coordinator position.
- 10:15-11:15    *Andrew Hite & Carl Nysten, ESRI - Using ModelBuilder in ArcGIS 9.2*  
ModelBuilder provides a graphical modeling framework for designing and implementing geoprocessing models that can include system tools, scripts, models, and data. This presentation will discuss and demonstrate how to use ModelBuilder for creating, editing, and running models, how to make models more dynamic by exposing model parameters and working with environment settings and variables, how to validate and document models to share with others, and publishing geoprocessing models thru ArcGIS Server to share with others.
- 11:15-11:30    *Shane Bradt, UNHCE - Remote Sensing Topics of Interest for NH GIS Users*  
From the GIS user perspective, a discussion of topics for inclusion at a remote sensing symposium taking place on September 7th at UNH in Durham, NH.
- 11:30-12:30    *All attendees - Round table discussion*  
Open format for users to bring their own questions and/or comments to the group. Feel free to bring your own lunch or share pizza (see above).
