

June GIS Workshops in Burlington, VT

Making Maps the Google Way

June 21, 2010
9am to noon

Topics covered:
making interactive maps
developing collaborative maps
sharing maps online

\$50

Skill level: The Basics

Learn how to make interactive and 3D maps using free Google mapping tools! This course explores the basics of Google Earth and Google Maps with a special focus on creating your own maps to share with others. Make Google Earth and Google Maps work for you on PC's and Macs!

Participants will learn to:

create custom maps in Google Earth, create links in Google Earth (to websites, pictures, ect.), develop sharable & collaborative online maps in Google Maps

Participants will be provided with:

exercise manuals, workshop data
laptop computer with relevant software installed

GIS on Pennies a Day: Test Drive

June 21, 2010
1pm to 4pm

Topics covered:
downloading free GIS data
creating and editing GIS maps
using free GIS software

\$50

Skill level: Fundamentals

Take a variety of full-functioned, free GIS programs for a test drive! After a brief intro to the software, hands-on exercises will provide a framework to learn the basics of the programs, including how to create maps, edit GIS data and do basic geoprocessing. Participants are encouraged to bring their own data to use after they understand the basics of the software.

Participants will learn to:

make GIS maps, edit and manipulate GIS data, query GIS data, use basic geoprocessing tools, symbolize GIS data

Participants will be provided with:

exercise manuals, workshop data
laptop computer with relevant software installed
