

## NH Arc Users Group Summer 2009 Meeting

**Date & Time:** June 5, 2009 - 9:00 am to 2:00 pm

**Location:** Meredith Community Center, One Circle Drive, Meredith, NH

**Registration:** An email to Shane (sbradt@ceunh.unh.edu) would be appreciated

### **AGENDA:**

9:00-9:15 *Shane Bradt, UNH Cooperative Extension*  
**Welcome**

9:15-10:15 *Michelle Therrien, Town of Meredith, NH*  
**Sampler of GIS Projects in the Town of Meredith**

This presentation will highlight past, present and on-going Meredith municipal projects in which GIS has played a role.

Projects to be covered include:

- Preliminary build-out analysis for Page Pond conservation land purchase
- Septic risk analysis for Planning Department for future health ordinance to protect Meredith's drinking water supply
- Invasive plant species inventory with the Conservation Commission

10:15-10:30 *Morning break – refreshments provided*

10:30-11:45 *Jackie Curtis, ESRI Danvers*  
**What's new in 9.3.1**

This presentation will detail the new developer API's for ArcGIS Server and demonstrate the higher performance dynamic map publishing available at 9.3.1. We will also show the group better ways of sharing geographic information via online and through the new "layer packages". Lastly, we will show folks how they can quickly start GIS projects with ready to use content from Microsoft Virtual Earth.

11:45-12:30 *Brett Horr, Town of York, ME*  
**Roundtable discussion on the GISP certification**

The GIS Professional certification is a topic of discussion in many GIS circles. Have you ever wondered what a GISP is? Are you curious about what it takes to become one? Do you have an opinion about the concept, current reality or future implementation of Certified GIS Professional? We look forward to an open and constructive discussion by the group on this important topic.

12:30-2:00 *Discussion over lunch – refreshments provided*
