

## May 2012 Online Mapping Workshops in Plymouth, NH

### Making Maps the Google Way

May 15, 9am to noon

**Topics covered:**  
making interactive maps  
making online maps  
creating basic Mashups

\$49

#### Skill level: The Basics

Learn how to make Mashups, including interactive and 3D maps, using free Google mapping tools! This course explores the basics of Google Earth and Google My Maps with a special focus on creating your own maps to share with others.

#### Participants will learn to:

create custom maps in Google Earth,  
create links in Google Earth (to websites, pictures, etc.),  
develop sharable & collaborative online maps in Google Maps

### Getting to Know ArcGIS Online

May 15, 1pm to 4pm

**Topics covered:**  
online mapping  
adding your data to maps  
embedding and sharing maps

\$49

#### Skill level: The Basics

Learn to use ESRI's new online mapping service, ArcGIS Online! This training will explore the ready-to-use maps available and on the site, and cover how to add your own data to the maps. Whether you use ArcGIS Desktop or not, ArcGIS Online can provide an easy and powerful way to make and share online maps for free.

#### Participants will learn to:

create a customized ArcExplorer Online map  
add GIS data layers to an online map from a range of sources  
import your own location data to the map (.csv, .shp)  
share a map via email, Facebook, Twitter and embedding
