

OUTSMARTING THE COOKIE MONSTER

Choose Snacks Wisely!
Good Snack Foods Can Keep You Feeling Great!

Why plan good foods for snacks?

- ◆ Good foods have lots of needed nutrients.
- ◆ Nutrients help your body grow and keep you healthy.

Is it OK for children to snack?

- ◆ Yes... children usually need to snack.
- ◆ Children are busy growing.
- ◆ Their stomachs are small, so they only eat small amounts at mealtime.
- ◆ Healthy snacks can be a fun way to get needed foods into their bodies. (Make sure to space snacks between meals, not right before them.)

Children choke very easily on small, firm, round-shaped foods. Never give children under 5 any food that could get stuck in their throat such as peanuts, hot dog slices, grapes, popcorn, hard round candies and raw carrot pieces. Sit with your children when they snack to join in the fun, and to supervise.

Is it OK for Adults to Snack?

Yes... adults get hungry too!

- ◆ Healthy snacks can help make up for missed meals.
- ◆ Snacktime is often a break from jobs and household tasks.

Can Snacks Make Me Fat?

- ◆ Eating more food than your body needs causes fatness.
- ◆ Don't overeat healthy foods or junk foods.

Are Healthy Snacks More Expensive Than Junk Food?

Not usually... With all the nutrients in healthy snacks, they're a better buy than empty calorie junk foods.

- ◆ Consider buying large packages of healthy snacks when they are a better buy.

How do different snack foods compare?

1 Orange (25¢/serving)	to	1 Fruit Roll-up (30¢/serving)
2 Graham crackers (15¢/serving)	to	1 Cream-filled cake (20¢/serving)
1 serving of pretzels (13¢/serving)	to	15 Potato chips (15¢/serving)

Do Your Children Qualify for the School Breakfast Program?

Low-income children may qualify to receive school breakfast free or at a reduced price, but not every school has a school breakfast program.

Check with your child's school to find out if it participates in the school breakfast program and if your child is eligible to participate.
