HELMET RELEASE FOR 4-H EQUESTRIANS

My child will be participating in the 4-H Horse Program. I understand that all youth enrolled in the NH 4-H program must wear a properly fitted equestrian safety helmet which carries ASTM-SEI approval with secured chin harness properly fastened at all times when mounted on an equine, when leading a jumping horse, or in a vehicle being pulled by one or more equines. **Check helmet expiration date. Helmets should be replaced after an impact or after 5 years.**

I further understand that it is the responsibility of the rider and the parent/guardian of the minor rider to see to it that the headgear worn complies with such approved standards and carries the proper seals and is properly fitted and in good condition. University of New Hampshire Cooperative Extension, organizing committees, and licensed officials are not responsible for checking headgear worn for such compliance.

University of New Hampshire Cooperative Extension makes no representation or warranty, expressed or implied, about such headgear, and cautions riders and parents/guardians that serious injury may result despite wearing such headgear as no helmet can protect against all foreseeable injuries in equestrian sports.

4-H members are responsible for the accuracy of all information provided. The 4-H county staff signature is verification of date of submission only. No changes or additions are to be made to this Form without 4-H county staff initialing the change.
