Fall 2011 GPS Workshops

GPS & You: GPS Basics

September 19th, Concord, NH
9am to noon

October 4th, Hancock, NH
1pm to 4pm

October 12, Durham, NH
9am to noon

October 18th, Plymouth, NH
9am to noon

Topics covered:
- GPS concepts
- GPS navigation
- GPS point collection

Skill level: The Basics
Learn everything you ever wanted to know about how to use a handheld GPS receiver! These 3 hour workshops are designed to teach you about navigation and data collection with GPS receivers without taking up and entire day. These workshops are designed for people with no GPS experience, or basic GPS users who want to learn more about this ever more important technology.

While instruction will be based on the provided handheld GPS units (Garmin GPS 76), the instructor will help participants with their own GPS units as time permits.

GPS & You: GPS Basics

This course covers the basics of GPS technology, how to upload GPS points from a computer to your GPS unit, how to collect waypoints and how to navigate to points you have collected. Introductory presentations will explain the technology behind GPS, but most of the workshop will be spent outside putting handheld GPS receivers through their paces.

More GPS workshops
GPS Basics is the introductory workshop in our GPS series, and is strongly suggested as a precursor to our more advanced workshops:

Google Put the “G” in GPS
Map GPS data with Google Earth & Google Maps

Trail Mapping with GPS
Learn the ins and outs of mapping trails with GPS

SPACE IS LIMITED - PRE-REGISTRATION IS REQUIRED

Registration info: Sharon at sharon.hughes@unh.edu or 603.862.1029
Course content: Shane at sbradt@ceunh.unh.edu or 603.862.4277
