Presented in Randolph Center, VT and West Lebanon, NH by UNHCE Geospatial Outreach Program

Vermont 2012 Intro to ArcGIS Workshops

Introduction to ArcGIS 10
9am to 4pm (3 days)

June 11th to 13th
Vermont Technical College
Randolph Center, VT

September 11th to 13th
Windjammer Inn
South Burlington, VT

October 22nd to 24th
Fireside Inn & Suites
West Lebanon, NH

Skill level: Fundamentals
Learn the ins and outs of working with ArcGIS 10 in a hands-on learning environment! This course is useful for people who have no prior GIS experience, as well as those who have used ArcGIS, but are new to ArcGIS 10. Participants learn how to use ArcGIS 10 to produce attractive, effective maps. Data processing and data editing techniques are covered, as well as, new techniques for mapping and sharing GIS data online through ArcGIS.com.

Participants will learn:
symbolize GIS data; add labels and annotation; query data; use geoprocessing tools: merge, buffer, dissolve; manipulate attribute tables by adding fields, calculating values, and joining tables; import data into ArcGIS, design maps using layouts, add data from and upload data to ArcGIS.com

Software used:
ArcGIS 10

Topics covered:
Creating GIS maps
GIS techniques
GIS data maintenance

$495 standard
$349 reduced

Note: If you have special needs that need accommodation, please contact us 1 week in advance. UNHCE is an equal opportunity educator and employer. University of New Hampshire, U.S. Department of Agriculture, and NH counties collaborating.
