

Seacoast SeaPerch Educator Workshop

Interested in bringing the SeaPerch ROV program to your classroom?

Attend the Seacoast SeaPerch Teacher Workshop, and learn how to build, and then test an underwater ROV (Remotely Operated Vehicle).

On December 2nd, 2017 at UNH, Seacoast SeaPerch will offer a one day training program open to educators, 4-H leaders, afterschool providers, community partners or others interested in coaching a SeaPerch club or team.

The training will include:

Building a SeaPerch – educators will work in teams to build a SeaPerch ROV

Working with youth – learn strategies for challenging youth and incorporating the principles of inquiry science

Organizing a SeaPerch Club/Team – we will get you started in forming a SeaPerch club or team. covering startup costs, school teams and 4-H clubs, safety, finding local sponsors, general resources and competition details

Participants will build a SeaPerch kit during the workshop in pairs, and then receive instructions and a part list to help you build them with your group.

Lunch will be provided.

Cost for the workshop is \$20

Saturday, December 2nd, 2017

9 am - 4 pm

UNH Chase OE Lab, Durham, NH
