

PREPARING YOUR GARMENT FOR STATE FASHION REVUE

Use the following checklist to get your garment ready for State Fashion Revue Judging.

1. ✓ 1. Only the pieces you can wear at one time will be evaluated. If there are additional pieces, you must choose which ones to send. Garments not worn may be carried on the stage (e.g. matching pants or skirt), and small children may model garments made for them on stage. Backpacks, hats, slippers, etc. are considered accessories and will not be evaluated for construction. Their appropriateness will be judged during modeling evaluation. Do not send it to state judging. Bring it with you for modeling.
2. ✓ 2. Place your Garment Description Form and Pattern Guide Sheet in a gallon size zipper seal clear or plastic bag. If you have already turned in your Garment Description Form to your county 4-H office, they will put your form in the bag for you.
3. ✓ 3. Fill out the top section of a blank Advanced Level Evaluation Form with your judging #, age, garments, # of items, and years in the clothing project. **Do not fill out your name, club, town, or county.** Be sure to fill out the ✓ column to indicate which construction technique you tried for the first time. Put this form in the plastic bag.
4. ✓ 4. Write your judging number on a small (3"x3") piece of paper(s) and attach it to each garment item being judged.
5. ✓ 5. You should launder or dry clean your garment(s) if it is soiled or has perspiration odor.
6. ✓ 6. Garments may be improved between county and state evaluations, but garments may not be added or subtracted. That is, all garments coming to the state evaluation must have been judged at the county level and all garments judged at the county level must come to the state evaluation.
7. ✓ 7. Attach the plastic bag that includes your Garment Description Form, Pattern Guide Sheet, and Advanced Level Evaluation Form to your hanger. You can do this by punching a hole in the bag and looping it over the hanger hook or attach it with a clothes pin, etc.
8. ✓ 8. Cover your garment completely with a plastic bag of the dry cleaner or trash bag type. If you have a long garment, place a bag over the lower half as well. Do not send quality garment bags as these tend to "disappear".

Good Luck! We look forward to seeing you in your garment at State Activities Day.
