

## Pest Management Resources for NH Farmers Spring 2008 Alan T. Eaton

### Websites

<http://extension.unh.edu> UNH cooperative Extension's website. Among the items here:

- **IPM newsletter** <http://extension.unh.edu/Agric/AGPMP/IPMNews.htm> You can see all issues for the past several years. It primarily covers fruit pests.
- **Sweet corn IPM page** <http://extension.unh.edu/Agric/SCIPM/index.htm>
- **Photos of apple injury** (& beneficial apple arthropods)  
<http://extension.unh.edu/Agric/AGPMP/Apples/index.htm>
- plus links, degree day data, dozens of publications, news articles...

<http://PRONewEngland.org> This website is a joint project of Coop. Extension IPM staff in all six New England States. Among the features:

- search over 1000 pest management fact sheets
- links to ag interest groups in each New England state
- links to IPM newsletters in New England
- link to Orchard radar (U. Maine, predicts orchard events, driven by weather data)
- links to IPM resource people in each state (email, telephone, etc)
- links to identification/diagnostic labs in New England

If you prefer to go directly:

- Univ. Connecticut IPM Program: <http://www.hort.uconn.edu/ipm/>
- Univ. Maine IPM Program : <http://www.umext.maine.edu/topics/pest.htm>
- Univ Massachusetts IPM Program: <http://www.umass.edu/umext/ipm/>
- Univ. Rhode Island Greenshare Program: <http://www.uri.edu/ce/ceec/greenshare.html>
- Univ. Vermont IPM Program : <http://pss.uvm.edu/ipm/>
- Northeast Region (US) IPM Center: <http://northeastipm.org/>

### Publications

Information distribution technology is changing so rapidly, I hesitate to list much here; it is out of date very quickly. In several states (including ours) publication centers that held stocks of printed publications are on the way out. We (NH Coop. Ext.) still have dozens of printed publications in use, and availability (and future fate) varies by title. Because of the rapid change, your best contact point for these is your local County Extension Educator in Agriculture (list is below). A few examples of regularly updated publications:

New England Greenhouse Floriculture Guide  
New England Small Fruit Pest Management Guide  
New England Vegetable Management Guide  
New England Apple Pest Management Guide (soon to be tried as New England version of the New York Tree Fruit Guide)

*(Continued on reverse)*

## New Hampshire Diagnostic Services

NH Arthropod Identification Center G28 Spaulding Hall, 230 College Rd. Durham, NH 03824  
Identification costs \$5.00 (arthropods means we'll accept insects, mites, spiders, ticks...)  
Instructions & form: <http://extension.unh.edu/Agric/AGPDTS/ArthroID.htm> 862-3200

UNH Plant Diagnostic Lab G37 Spaulding Hall, 238 College Rd, Durham, NH 03824 Fee is  
\$15. Details and form: <http://extension.unh.edu/Agric/AGPDTS/PlantH.htm> 862-3841

## Pest Management Supplies (magnifiers, traps, tools):

Great Lakes IPM 10220 Church Rd, NE Vestaburg, MI 48891 (989) 268-5693 and  
5911 1-800-235-0285 FAX: 268-5311 <http://www.greatlakesipm.com>  
Gempler's 100 Countryside Drive P.O. Box 270 Belleville, WI 53508 1-800-382-  
8473 <http://www.gemplers.com>

## Sources of Natural Enemies of Pests:

IPM Laboratories, Inc. P.O. Box 300, Locke, NY 13092-0300 (315) 497-2063  
<http://www.ipmlabs.com>

The Green Spot 93 Priest Rd., Nottingham, NH 03820-6204 (603) 942-8925 FAX:  
8932 <http://www.greenmethods.com> (Also some traps, books, supplies)

There are dozens of other suppliers, most of which are located farther away. These two companies deal with NH customers on a regular basis.

## UNH Cooperative Extension County Agr. Contacts

Belknap County	Amy Ouellette	527-5475	Carroll County	Tina Savage	539-3331
Coos County	Steve Turaj	788-4961	Cheshire County	Carl Majewski	352-4550
Grafton County	Tom Buob	787-6944	Sullivan County	Seth Wilner	863-9200
Hillsborough Co.	George Hamilton	641-6060	Merrimack Co.	Sadie Puglisi	796-2151
	Margaret Hagen	641-6060		Dot Perkins	796-2151
Rockingham Co.	Nada Haddad	679-5616	Strafford County	Geoffrey Njue	749-4445

## Extension Agriculture Specialists (mostly located on campus, UNH)

Entomology: **Dr. Stan Swier** 862-1733, **Dr. Alan Eaton** 862-1734
