

NH Wetlands Mapper Updates - January 2016

Update	Description
Digital Tax Map Data	<ul style="list-style-type: none"> Digital tax map data was added to the Political Boundaries category. Note that there are still a few towns that do not yet have digital tax maps
LIDAR Data	<ul style="list-style-type: none"> LIDAR (Light Detection and Ranging) data exists for some parts of the state, primarily the coast, and was added to the Imagery and Topography category. LIDAR is a remote sensing method used to examine the surface of the Earth that allows scientists and mapping professionals to examine both natural and manmade environments with accuracy and precision.
Wildlife Action Plan 2015	<ul style="list-style-type: none"> The 2015 Wildlife Action Plan map data replaced the 2010 data
Conservation/Public lands	<ul style="list-style-type: none"> The Conservation/Public Lands data layer has been updated and a new layer has been added - "Conservation Lands: Outline Only"
HUC 6 and 8 Watersheds	<ul style="list-style-type: none"> HUC 6 and HUC 8 watersheds were added so there are now HUC 6, 8 and 12 watersheds.
Transmission and pipelines	<ul style="list-style-type: none"> This data was added to the Mapper as a separate category
