Barry Conservation 4-H Camp

2019 Program Schedule

Junior Conservation Officer Camp

August 4 - 7

Ages 14 -17

Cost \$315

Physical Activity Scale* = 3++

Junior Conservation Officer week has been a gigantic success so it's back by popular demand for 2018! Many campers tell us that they aspire to become a Conservation Officer or to work in outdoor related careers. What a great way to fuel the passion of youth who will be our future hunters and anglers and, potentially, our natural resource professionals? We anticipate very high demand for Junior Conservation Officer Camp which is designed specifically for older youth.

New Hampshire Conservation Officers will be at camp all week and will be teaching a host of fun, exciting and interesting sessions. All programming will be conducted in a hands-on approach. In addition to traditional camp activities, topics will include search and rescue, crime scene investigation, firearms safety, tracking, surveillance, night vision technology, wildlife laws, arrest procedures, K-9 techniques, and much, much more.

We plan to pack a lot into this half-week session...including a lot of fun!

*The **Activity Scale** estimates the level of challenging physical activity each week. 1= some, 2=moderate, 3=lots

The University of New Hampshire Cooperative Extension is an equal opportunity educator and employer. University of New Hampshire, U.S. Department of Agriculture and N.H. counties cooperating.
