

# DO YOU WANT TO LEARN MORE ABOUT NEW HAMPSHIRE WILDLIFE?

The **Focus on Wildlife** brochures include information on the status of wildlife species in New Hampshire, threats that are having an impact on their populations, tips for how to help conserve the species, and practical information for people interested in managing their land and backyards to help wildlife.

Wildlife species include: New England cottontail rabbits, Blanding's turtles, black racers, brook trout, and bats.

## How can I get a copy of these brochures?

Download brochures at [extension.unh.edu/WildlifeBrochures](https://extension.unh.edu/WildlifeBrochures)  
or receive a single set free through the UNH Forestry Information Center  
(call 1-800-444-8978, or email [forest.info@unh.edu](mailto:forest.info@unh.edu))

The brochures were produced by the University of New Hampshire Cooperative Extension with support from the New Hampshire Fish and Game Department, the Natural Resources Conservation Service, and US Fish & Wildlife Service.
