INQUIRY

TEACHING METHODS:

Grounding STEM Education
Programs in Science Practices

Workshop For Afterschool Professionals:

The Afterschool Inquiry Teaching Method course is designed for afterschool professionals to give a grounding in teaching inquiry using the science practices and tools to help apply the practices in afterschool STEM programs.

Participants will explore the science practices with particular attention paid toward asking questions. One curriculum unit will be introduced and methods for “shifting” lessons already used in programs will be included.

August 29-30th, 2016

10am-4pm

The Event Center

Granite State College, Concord, NH
