
NH 4-H STEMONSTRATIONS

(Science, Technology, Engineering or Math Demonstration)

SIGN UP DEADLINES
Friday, February 15, 2019

What is it?

A STEMonstration, is a demonstration explaining the details of the STEM based project completed by the 4-Her. It should show and tell what was done and learned during the project. STEMonstrations should be based on a hypothesis and follow scientific inquiry process to show outcomes. As we look to have youth enjoy science and really learn basic science skills what better way to do it than by putting together a science demonstration. Many of our youth have been involved in science fairs in school and the 4-H event will help them expand on science further. Better yet, it will challenge our 4-Hers to find the SCIENCE in their 4-H project!

Who can participate?

Any interested 4-Her ages 8-18 are welcome to participate.

Where to sign up?

If signing up for a Science Demonstration, use CATEGORY #18 on the “Demonstration Registration Sheet”.

NH 4-H STEMonstration Scoresheet

The NH 4-H STEMonstration Evaluation is modeled after our other Presentation Day Scoresheets. It provides the criteria for the evaluation of the Science Demonstration.
