

## ***Bring the excitement of deep sea exploration LIVE to your classroom, science center and community events!***

Shipboard broadcast capabilities aboard Exploration Vessel (E/V) *Nautilus* enable students and the public to engage in a unique two-way, live dialogue with scientists, engineers, and educators of the Corps of Exploration supported with visually-rich video content. Live interaction broadcasts are available to New Hampshire education partners as part of the Ocean Exploration Trust's Community STEM Program funded by the University of New Hampshire.
