

TOGETHER. We Can Achieve More

2018 NH Master Gardener Association Membership

The NHMGA was created in November, 2003 in partnership with UNH Cooperative Extension. The purpose of the Association is to enhance the Master Gardener program and offer Master Gardeners an extra layer of support, education, and community. The New Hampshire Master Gardeners Association volunteers work hard to improve the quality of life in NH communities. NHMGA members foster horticultural education and outreach in support of the UNHCE mission. Membership is not required to retain Master Gardener status. However, in order to be eligible to apply for and receive project funding from the NHMGA, you must be an active master gardener.

How are dues and donations used? The NHMGA provides financial resources to its members through scholarships and grants for approved community projects. The NHMGA Special Projects Committee is pleased to announce its **eleventh** year assisting Master Gardeners and Master Gardener Interns with funding for their projects. Prior grant recipients have taken leadership roles in community gardens, school gardens and numerous other projects. Community organizations around the state have benefited from the NHMGA's generosity and Master Gardener expertise.
