Hours

\$380,577

Value of Volunteer Time

*In 2019, for every \$1.00 Strafford County contributed, UNH provided \$2.51 of statewide resources.

Strafford County, set along Great Bay, is home to the picturesque University of New Hampshire Durham campus. This past year, Nutrition Connections staff provided free farmers markets with donated produce to hundreds of families, while 4-H presented gardening and cooking programs. Extension foresters participated in research projects to identify and enhance the economic contribution of forest products in the state. Resident Kathryn Busch said, "As a new homeowner and landowner this year, Extension has been my go-to for information. Extension has really helped me feel at home in a new area."
