

Email template for managers/directors using the anonymous link:

Our records indicate that you are registered to attend a UNH event/training/workshop.

Please read this information carefully as it outlines steps to be taken to ensure your participation.

The safety of our students, staff and event participants remain UNH's overriding priority.

To prevent the spread of COVID-19 and reduce the potential risk of exposure, all participants must complete this simple health screening. This health screening must be completed on all days you are scheduled to attend a UNH event.

Your participation is mandatory in order to protect yourself and your fellow participants.

We request you **complete this screening before you leave home on the day of the event**. If you are a parent/guardian with a child attending a UNH event, please answer the health assessment questions for your child.

When taking the screening, if all health protocols are met, you will receive a green check upon completion. **You are required to show proof of the green check at point of entry**. We recommend you complete the screening on a mobile phone and save a screen shot or photo to present upon arriving at the event/program. Other devices can be used, as long as you have a way to present the green check with the date to event staff. A paper form is also available – see link below to download.

Please note that UNH is adhering to the following protocols for all participants:

- Cloth or disposable face coverings must be worn. UNH will not provide face coverings – you must bring your own.
- Maintain social distancing guidelines of a minimum of six feet of distance between participants.
- Equipment, device and supply sharing are not permitted.
- Maintain hygiene practices
- A temperature check, with a no-touch thermometer, may be administered upon arrival

For more information, contact your program/event coordinator.

Regardless of screening results, if you are experiencing symptoms such as those related to COVID-19, we ask that you stay home and contact a healthcare professional.
