

Pete Emerson, Fisheries Biologist, Vermont Fish and Wildlife Dept., Agency of Natural Resources
374 Emerson Falls Road, Suite 4, St. Johnsbury, VT 05819, 802-751-0485, Peter.emerson@vermont.gov

Pete received a B.S. in Aeronautical Science at Embry-Riddle Aeronautical University in Florida, and a second B.S. in Environmental Science at Lyndon State College before attending graduate school at the University of New Brunswick in Canada studying Atlantic salmon and instream habitat restoration for juvenile salmon on the unregulated Restigouche River in northern New Brunswick. Pete is responsible for managing fisheries and fisheries habitat in the Northeast Kingdom. Specific projects include the management and enhancement of State owned riparian lands, management of the “fish ladder” on the Clyde River and its landlocked Atlantic salmon fishery, and is a “feller” for strategic wood addition on the Nulhegan and Paul Stream tributaries.
