\$35 registration fee for each 2-day session.

Bring your own lunch and water.

Questions about registration: alicia.carlson@unh.edu or (603) 862-3883.

Pre-registration required by October 4. Space is limited.

These workshops are sponsored by the Belknap and Carroll County Conservation Districts and funded by USDA Natural Resources Conservation Service.

Workshop Description

Day 1: ½ day indoor, ½ day field session

Day 2: all day in field

Comprehensive overview of why and how large wood can be added to streams to improve their function and habitat value. Hands-on experience with adding wood to varied types of streams, addressing landowner concerns. Includes quick assessment of existing instream wood, tree selection and impact on riparian forest, selecting locations for wood additions, orienting additions, anchoring, distribution of wood, techniques for moving wood to stream, floodplain reactivation, and adding roughage adjacent to additions.

Instructors from N.H. Fish and Game, NRCS, Trout Unlimited, Tin Mountain Conservation Center, and UNH Cooperative Extension.

What to bring and wear

Hard hat, high visibility vest, work boots and/or rubber boots (steel-toed preferred), work gloves, long pants.
Optional: waders, rain gear, sunscreen, bug repellent.

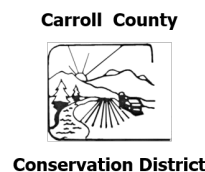

Who should attend

Foresters, loggers, arborists, landscape contractors, land conservation organizations, trail contractors, youth corps leaders and anyone interested in stream restoration as a business practice.

INFORMATION ABOUT CREDITS

Credits are assigned for attending the entire two-day workshop as follows:

- SAF Category 1 12.5 CFEs
- PLP 16.0 Certification Credits
- NH Natural Resource Scientists 12.5 contact hours

Extension

No person shall be denied the opportunity to participate in this program because of inability to pay.
